

Musical.ly

7 things you can do to keep them safe on the app

1. Talk to them about Cyberbullying

Users can leave comments on videos posted so, this may leave your child open to receiving negative messages. Giving them guidance about what to do if they are cyberbullied or see others being cyberbullied will help them to keep themselves safe.

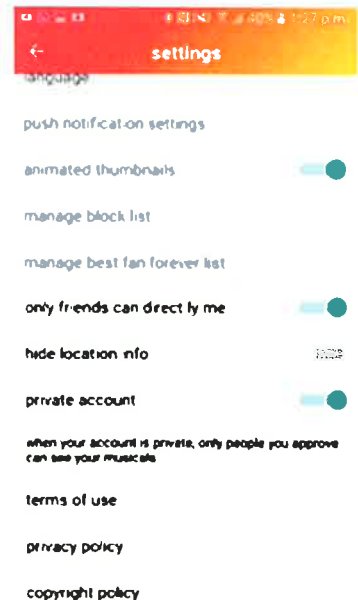

2. Make their musical.ly account private

Make sure that your child sets their account to be private by going to the cog icon on the right hand side and selecting 'settings'.

Once in 'settings' scroll down to 'Private account' option and turn it on. This will ensure that all videos that are posted can only be seen by approved followers but the profile will stay public.

3. Make sure they are Share Aware

Help them to think more carefully about what they post and who it may be seen by so that they protect themselves.

4. Get familiar with the community guidelines

To make sure you know what is and isn't accepted on the app you and your child can read through the guidelines to help them to be inform about what they can and can't do on the app.

5. Switching 'hide location info' option on

This will make sure that their location is not shown when they post a video.

6. Make sure they know accounts cannot be totally deleted

There is currently no option to delete a musical.ly account but this may be available in the future.

7. Be aware of explicit songs on the app

Some of the songs featured on the musical.ly app may have explicit language and sexual content that may not suitable for your child. It is best to review the app together with your child beforehand.
